**YVONNE FLORCZAK-SEEMAN**  
KEYNOTE SPEAKER

Yvonne Florczak-Seeman's desire to keep others from experiencing the trauma she went through has given her the courage to speak out on behalf of unborn babies and post-abortive women.

For the past 10 years she has spoken to tens of thousands of middle and high school students about the consequences of abortion and the importance of chastity. She has appeared on Fox News through *Hannity's America*, Telemundo Spanish Television, and the Total Living Network.

Yvonne is the President and Founder of **Love From Above**, a company that seeks to employ women who have been hurt by abortion, who are in crisis pregnancies and single moms who have chosen life for their babies. She has authored two books: *A Time to Speak*, a journal for post-abortive women and a 12-week Bible Study Program for post-abortive women called *A Time to Heal*. She has testified before the Illinois State Legislature on a "Woman's Right to Know" bill and lobbied against the "False Parental Notification" bill.
